Daniel Boyland

Digital Learning Designer · AI-Enabled Content & Learning Technology

Cwmbran, South Wales | 07878 602772 | dan.boyland@forgedframeworks.co.uk |
linkedin.com/in/daniel-boyland-577b6476 | danforgedframeworks.github.io/Portfolio

Core specialisms

AI & digital learning

- Agentic AI authoring & content pipelines
- Bespoke HTML/CSS/JS blocks & xAPI wrappers
- Rise 360, Storyline, SCORM, xAPI, Moodle
- Accessibility (WCAG 2.2, EN 301 549)

Learning, curriculum & pedagogy

- Instructional design & blended learning
- Apprenticeship & RQF curriculum (L3–L6)
- Video scripting, storyboarding & media selection
- Competence frameworks & assessment strategy
- Metacognitive & learning-science models

Certifications

- TAP Diploma in Learning Design (2021)
- IBMS Certificate of Expert Practice in Training (2017)
- IBMS Specialist Diploma in Haematology & Transfusion (2007)
- UKAS Technical & Lead Assessor — ISO 15189, 22870, 17043

Education

MSc Biomedical Sciences (Immunohaematology) — Merit
Cardiff Metropolitan University · 2016

BSc (Hons) Biomedical Sciences — First Class
Cardiff Metropolitan University · 2007

BSc Biology — 2:1
University of Portsmouth · 2003

Registration

HCPC Registered Biomedical Scientist

Chartered Scientist (CSci)

IBMS Full Member

Professional profile

Digital learning designer and learning technologist who fuses instructional design with AI-enabled content engineering. Builds agentic AI authoring pipelines, standalone bundled HTML learning blocks and automated QA workflows across Rise 360, Storyline and VLE platforms — grounded in a decade of ISO-regulated, evidence-led practice. Founder of Forged Frameworks, delivering scalable, accessible, WCAG-aligned learning for apprenticeship, HE and corporate partners.

40%	2,000+	650+	20
Content production time cut via AI automation	Hours logged in the first year of Forged Frameworks, 40+ modules	Training days moved online, Feb 2020 to Mar 2021	Line reports at most (NHS); 47 trainers led at UKAS

Signature projects

~40% — **Catalyst pipeline** — Agentic AI pipeline turning curriculum & platform documentation into SME-ready course content, themed per programme — about 40% less SME time per module.

No API — **Designer-Mode block library** — Standalone, bundled HTML/CSS/JS learning blocks, editable locally with no API calls, for Rise 360 & Storyline.

50+ — **VLE migration** — Cross-platform migration of assets with SCORM conversion and AI-assisted metadata tagging.

Professional experience

Founder & Creator

Aug 2025 – Present

Forged Frameworks

AI-driven, human-assured learning-design consultancy.

- Design and build Level 3 to Level 6 apprenticeship and degree modules and Catalyst framework packages for Tiro Training, mapped to KSBs, RQF and FHEQ outcomes: 1,500+ hours across 28 since September 2025.
- Manage Tiro's Moodle LMS and publish modules to it; coordinate SMEs, project leads and other learning designers against agreed deliverables.
- Design agentic AI authoring pipelines and automation that cut production time and improve QA accuracy.
- Build standalone, bundled HTML/CSS/JS learning blocks — locally editable, no API calls — for Rise 360 & Storyline.
- Design HCP interactive education for a medical-education publisher: 150 hours across five oncology, haematology and diabetes-technology programmes since June 2026, from prescribing guidance to decision tools and patient-management pathways.
- Provide WCAG / EN 301 549 accessibility consultancy, ISO quality-system support (Digistain) and AI-literacy / prompt-engineering capability building.

Further specialisms

Apprenticeships & accredited programmes

- KSB, RQF & FHEQ mapping (Level 3 to 6)
- Middlesex-accredited degree modules
- End-point assessment preparation
- Ofsted-facing content: Prevent, safeguarding, British values
- Training plans, competency matrices & sign-off

Leadership & collaboration

- Project leadership & cross-functional coordination
- Stakeholder engagement — employers, SMEs, regulators
- Design-workshop facilitation with SMEs & curriculum teams
- Coaching, mentoring & capability development
- Commercial training delivery & consultancy

Platforms & tools

Authoring & media

Articulate 360 (Rise, Storyline) · SCORM · xAPI · Visme · Canva · Vyond · Descript · Camtasia

Code & AI

Python · HTML/CSS/JS · Claude Code · OpenAI Codex · OpenAI & Gemini APIs · Google Apps Script · NotebookLM

Dev & hosting

GitHub repo management · web & content hosting

LMS & VLE

Moodle · Totara · FutureLearn

Quality systems

Q Pulse · iPassport · Telepath / Dedalus · Ideagen

Professional experience (continued)

Learning Content Manager

Sept 2024 – Aug 2025

Tiro Training Ltd

- Scripted and designed 240+ hours of L3–L6 blended learning — including video scripts and storyboards — across Bioscience, Asbestos, Materials, Chemical Science, Polymer & Processing and Laboratory Management.
- Aligned every programme to its standards: apprenticeship KSBs, RQF and FHEQ outcomes, IBMS, ATAC and BPF requirements, and Middlesex-accredited degree modules; 100% external certification success.
- Line-managed 2 content staff and led about 12 contract SMEs and designers: 1:1s, objectives and development plans; mentored them in instructional design, accessibility and inclusive practice.
- Redesigned the Moodle VLE and integrated GenAI tools (NotebookLM, ChatGPT) into the content pipeline.

Senior Training Manager

Feb 2022 – Sept 2024

UKAS Training Academy

- Ran the ISO 15189, 17025 and 17043 programme for clinical, testing and calibration laboratories; managed budgets and external resource and grew the digital and blended portfolio the COVID year had started.
- Line-managed up to 3 training managers and coordinators: 1:1s, appraisals, recruitment, onboarding, absence and development plans.
- Led a pool of about 30 internal and external training facilitators, 47 at its peak, plus SMEs and designers: onboarding, competency and quality of delivery.

Training Manager

Feb 2020 – Feb 2022

UKAS Training Academy

- Moved 650+ training days of classroom teaching to remote delivery between Feb 2020 and March 2021: material rebuilt for Adobe Connect, Rise 360 learning packs and pre-packs around each session.
- Developed healthcare content: measurement uncertainty, PoCT, proficiency testing, ISO 19011 audit.
- Supported assessor-workforce competency, documentation and digital delivery.

Assessment Manager, Medical Laboratories

July 2018 – Feb 2020

UKAS (Healthcare)

- Planned and led ISO 15189 assessments for clinical and diagnostic laboratories, including pan-pathology teams.
- Oversaw assessor competency, evidence review and governance.
- Supported organisations preparing for ISO 15189 and 17025 accreditation.

Daniel Boyland

Programmes I've designed

1,500+ — **Tiro Training, Level 3 to 6**
28 apprenticeship and degree modules and framework packages since September 2025

150 h — **HCP medical education**
Five oncology, haematology and diabetes-technology programmes since June 2026

240+ — **Six technical sciences**
Blended L3 to L6 learning with video scripts and storyboards (Tiro, 2024–25)

Degree — **Middlesex-accredited modules**
Written to module narratives, leading to RSci / RChem recognition

L3 — **ATAC asbestos**
Further-education content to ATAC requirements

650+ — **UKAS Academy online**
Training days moved to remote delivery, Feb 2020 to Mar 2021

Interests

Sci-fi, science and literature. Creative metalwork and blacksmithing — building my own forge and metalwork brand. Walking, running and wellbeing. Mental-health advocacy, and two very opinionated cats.

Professional experience (continued)

Technical Assessor & Quality Specialist — Nov 2017 – 2024

UKAS

Continuous parallel thread alongside training roles — UK & international.

- Conducted 70+ technical assessments across healthcare, proficiency testing, forensics and calibration.
- Advised on competence frameworks, audit preparation and process improvement; led data-integrity checks.
- Supported international accreditation bodies (Saudi Arabia, Ukraine, Netherlands).

Biomedical, Diagnostic & Managerial Roles — Feb 2004 – Jul 2018

NHS Wales — Cardiff & Vale UHB

Training & Standardisation Co-ordinator — Dec 2016 – Jul 2018
Training remit for ~150 staff across 8 sections, from support workers to senior scientists; chaired a 9-lead training team; succession and contingency planning.

Acting Automated Haematology Senior — Apr – Dec 2016
Line-managed about 20 staff (Biomedical Scientists, MLAs, support and clinical staff): 1:1s, appraisals, absence and capability; led the CPA→ISO 15189 transition.

Acting Haemoglobinopathy Diagnostic Service Manager — May 2015 – Jun 2016
Managed a team of 5 (Biomedical Scientists and support staff); Wales-wide screening for 4 of 7 health boards; ~£42k/yr saving via new algorithm.

Specialist Biomedical Scientist — 2009 – 2015

Biomedical Scientist & Medical Laboratory Assistant — 2004 – 2009

Founder & Blacksmith — 2020 – Present

Wig's Wonky Forge

- Founded and run a creative-metalwork brand, designing and hand-forging bespoke ironwork.
- Built my own forge and established the business end-to-end — making, branding and sales.
- Applies iterative design, craft discipline and resilience away from the screen.

Continuing professional development

GenAI in Learning Design (Coursera / Google) · Accessibility & Universal Design for Learning · ISO 15189:2022 Implementation & Internal Audit · Prompt Engineering for L&D · AI Literacy for Educators.

Values & soft skills

Learner-centred · Creative problem-solver · Inclusive communicator · Collaborative · Continuous learner · Reflective practitioner · Integrity-driven
